Rev	02	Name	Quality Policy

CLINISCIENCES GROUP have an extensive experience in providing research and in vitro diagnostic (IVD) products and services to its customers. We serve all kinds of laboratories, whether they are startups, hospitals, public research centers or pharmaceutical companies. **CLINISCIENCES GROUP** is committed to provide products and services that meet and exceed our customer's requirements and expectations. We will strive to maintain compliance with **ISO 13485:2016 standard** with a focus on continuous improvement, as well as continual monitoring and measurement of our core process metrics to ensure effectiveness and safety of the products.

CLINISCIENCES GROUP has developed, documented, implemented, maintained and continually improves its Quality Management System to ensure compliance with national and international Quality standards and regulations and to ensure that products adhere to ISO 13485:2016.

In accordance with these principles, the Chief Executive Officer (CEO) establishes the **STRATEGIC OBJECTIVES** of its management as follows:

- Comply with applicable quality, safety and regulatory requirements for our medical devices
- Achieve maximum supplier and customer satisfaction by meeting their needs and expectations
- Maintain a high-level optimization and quality control processes to achieve a system based on safety
- Monitoring our customers' total experience
- Achieve maximum motivation in all employees with regard to quality.

Tushendan RASIAH
CEO of CliniSciences Group
